

CADETTE DISCUSSION GUIDE

Discussion questions for Cadette Troops working on the Animal Helpers Badge:

- The human animal bond - the connection we feel with an animal of another species - has been developing for 15,000 years!
- Start a discussion with Cadettes: “What has changed over the years with how we interact with animals? Has anything stayed the same?”
- Ask Cadettes to consider and discuss, “Why might people have wanted a closer relationship with animals? How did they help us, and how did we help them?”
- Ask Cadettes to consider what their Troop would like others to know about animals and how to help them. Is there a cause for which they would like to advocate? Present service-learning projects and allow them to choose how to help!
